Силами международной команды из России, Индии и Италии с двадцатилетним опытом на рынке керамики ENNFACE — это квинтэссенция технологичности, творчества и востребованности. Мы собрали воедино все то, что необходимо на российском рынке, и воплотили в разнообразии дизайнов.

ENNFACE — это лицо европейской керамики. Стремление к натуральному и экологичному пространству вдохновило сделать акцент на матовых и структурированных поверхностях, которые достоверно воспроизводят естественные аналоги и отражают главные тренды керамического рынка. В партнерстве с итальянскими дизайнерами мы добились идеальных решений в текстурах и поверхностях, безупречных оттенков и необходимого количества лиц чтобы керамогранит ENNFACE не уступал итальянским и испанским производителям.

Внимание к качеству для нас самое важное. Для этого была разработана и внедрена дополнительная система контроля качества, благодаря которой потребители ENNFACE обеспечиваются высококачественной продукцией. Продукт торговой марки ENNFACE — это не только керамический гранит, но и сервис. Это постоянное поддержание остатков и удобное расположение складских комплексов в регионах, своевременная логистика и соблюдение сроков доставки. Команда ENNFACE создала удобство и комфорт для своих клиентов.
